

## PAG C1 – Reactivity Trends

Method

Labelled diagram

Sketch an empty results table for the experiments

Theory behind the experiment

More reactive metals will....

The gas produced is hydrogen. We can test for this gas by...

Explain how a fair test is achieved

Safety

Acids are corrosive so...

The most reactive metals should not be reacted with acids because...

Evaluation - What problems might you encounter during the experiment?

What improvements could you make to the experiment so that better results could be obtained?
