

What do the following letters stand for?
P
A
N
I
C

Write the half equations for the electrolysis of NaCl solution

C3 Chemical reactions

C3.4 Electrolysis

Write the half equations for the electrolysis of CaCl₂ solution

Metals go to the...

Non-metals go to the...

The exception is...

Electrolysis of molten ionic compounds

Electrolysis of solutions of ionic compounds

Similarities

Differences

Oxidation occurs at the...

Reduction occurs at the...

Write the half equations for the electrolysis of molten CaCl₂

Draw a labelled diagram for purifying copper

Draw a labelled diagram for electroplating a spoon
