

PAG C5 – Identification of Species

Labelled diagram

Risk Assessment

Hazards (What is causing the danger)	Risk Level (low, medium or high)	Precaution (What you must do to reduce the risk)	Remedy (What to do if a problem occurs)

Detailed method

Test for carbonate ions:

Test for sulfate ions:

Test for halide ions:

Detailed method

For flame test:

For sodium hydroxide / precipitate:

Test for carbonate ions:

Test for sulfate ions:

Test for halide ions:
